

Aircraft Owners and Pilots Association

The Aircraft Owners and Pilots Association (AOPA) is a not for profit member-based organization of general aviation pilots and aircraft owners.

AOPA's mission is to effectively serve the interests of its members and establish, maintain, and articulate positions of leadership to promote the economy, safety, utility, and popularity of flight in general aviation aircraft.

Representing two thirds of all pilots in the United States, AOPA is the largest civil aviation organization in the world dedicated to preserving the freedom to fly.

AOPA is committed to...

Ensuring the safety, future viability and development of general aviation around the world.

Fostering a diverse and reinvigorated aviation workforce with a new and expanded STEM education curriculum for high school students.

Advocating for our members at the Federal, State and local level through AOPA staff, a network of seven regional managers, and a corps of 2,500 Airport Support Network volunteers.

General Aviation is...

General aviation encompasses all civilian flying except scheduled passenger airline service and military aviation.

- General aviation accounts for \$219 billion in total economic output nationwide and over 1.1 million jobs.
- AOPA represents the general aviation interests of over 1,000 members in Hawai`i.

Hawai`i Air Tour Noise & Safety Task Force

AOPA represents our members interests and the general aviation position as a participant of the Hawai`i Air Tour Noise & Safety Task Force's Executive Committee. We will be assisting the Task Force to:

- Determine the best options and solutions regarding air tour noise and safety.
- Shape policy and rule making in the interest of the general aviation community.
- Ensuring public engagement and understanding of the Task Force's objectives and the impacts to aviators, businesses and communities across the state.
